

## Job Opening – Liaison Officer to Forschungszentrum Jülich, Germany

Cooperation between German and Indian researchers has a high potential in the future. To support new ideas in perspective partnerships and to keep in touch with existing strategic partners, **Forschungszentrum Jülich** is going to start a collaboration campaign in India and **RRR Labs** have got the mandate to coordinate this task.

**Forschungszentrum Jülich (Research Center Juelich)** is a public institution financed by the Federal Republic of Germany (90%) through the Ministry of Education & Research and the Federal State of North Rhine-Westphalia (10%) through its Ministry for Innovation, Science & Research.

- Up to 5000 people work at one of Europe's largest interdisciplinary research centres towards comprehensive solutions for the great challenges facing society in the future in the three fields of health, energy and environment, and information technology, thus laying the foundation for future key technologies.
- Juelich provides impetus and is engaged as a partner throughout the entire value-adding process of research from basic research up to actual innovations.
- Juelich focuses its expertise programmatically and breaks new ground in strategic partnerships with universities, research institutions and industry.
- Juelich intends to demonstrate that its research findings, its operation and utilization of complex infrastructures, and also its management achievements are among the best in the world.
- Juelich regards the creativity and motivation of its staff as the greatest asset of its research center;

To support and enhance these activity and better connect **Forschungszentrum Jülich** with the scientific communities in India, **RRR Labs** invites applications for a
